VOTE JUNE 7TH

Candidate Statement to appear on
Voter Pamphlets mailed to CD 20 Voters:

I am a committed independent with a decades-long record of serving the public interest. I have served in high-level positions in the Federal Government, including White House Policy Analyst and Special Assistant to the Assistant to the President, and for over a decade was the Senior Military Affairs Journalist at the Naval Postgraduate School in Monterey--the premiere science, technology and national security affairs graduate research university of the Dept. of Defense. From my position as Director of the Attorney General's Gender Discrimination Law Review at the U.S. Dept. of Justice, I exposed the Republican Administration's secret plan to weaken all federal Civil Rights laws, resigning publicly to a week of national publicity that interfered with the plan. My book 'October Surprise', exposing the deep story behind the Iran/Contra scandal, led to an official investigation by Congress. I was the elected Congressional District Coordinator for Ross Perot's independent United We Stand America, for what was then CD 17, now CD 20, and was the National Coordinator for Women for the Rev. Jesse Jackson's campaign for President. I hold a B.A. from Stanford, an M.S. from JFK University and Masters level certification in National Security Decisionmaking from the Naval War College.

America doesn't need to be 'Great again'. America needs to be AMERICA again. We all know our country is no longer a Democracy. BOTH parties have so sold out to Big Money that we no longer have 'One Person, One Vote' but 'One Dollar, One Vote'. ONLY *TRUE* Independents in Congress, free from all party whips, can bring our jobs home and our economy and Nation back from the brink.
